

DepEtchPro System Control Software

System Control ... WITHOUT PROGRAMMING !

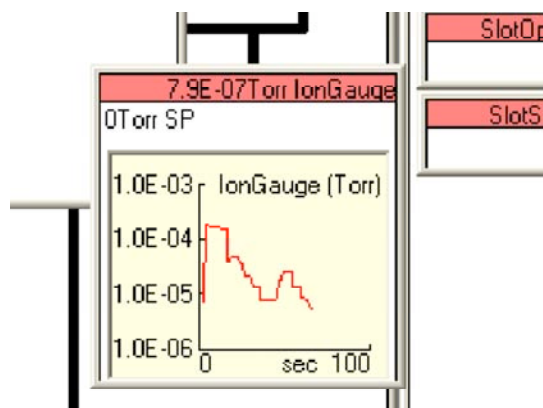

- Configure the System Graphically: Draw Item icons on the screen

- Write Recipes: Tell each Item what to do

- Run Your Jobs: With full datalogging and graphical output, and with error trips as needed

- Open Source: Always under your control; with multi-level password security

DepEtchPro Installs Fast, Simplifies System Wiring:

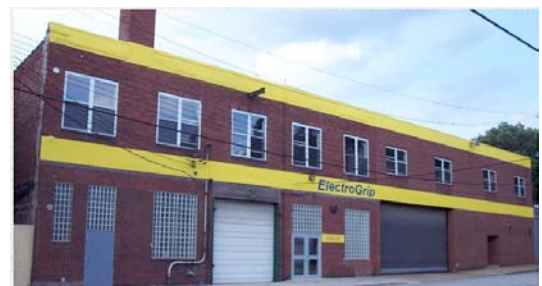

- Simple, Compact Local Wiring: Ethernet cabling between standard modules

- Rapid Implementation: Half a day for a simple vacuum system
- Low Cost of Implementation, Low Cost of Ownership: Future-proof your system
- Legacy Systems Quickly Upgraded: Freedom from original software supplier
